

ROTARY DISTRICT 7450

Advisory Committee On Service Projects and Fundraisers

The District 7450 Advisory Committee on Service Projects and Fundraisers connects interested Rotarians in all of our Rotary Clubs throughout District 7450. The District facilitates by inviting all Rotary Clubs to share what projects they do, their signature events, and with whom they partner – and by making the information available to all.

The District 7450 Advisory Committee groups the service projects and fundraisers separately, by category, with identification of the Rotary Clubs who have experience in those fields.

Consult the District Advisory Committee on Service Projects and Fundraisers to explore ideas.

Consider what service projects, fundraisers, and partners to collaborate with to achieve your Rotary Club's objectives.

Contact the Rotary Clubs for conversations about their experiences.

Connect with the District to update your information and keep resources current, and connect with Rotarians throughout the District.

The principal objective is to offer ideas and assistance on how to select and put together SERVICE PROJECTS and FUNDRAISERS that fit your Rotary Club's programs, budget, and membership size.
